

# Crowd Control

Nathan Mixon

B. S. in Computer Science

Project Advisor: Dr. Sean Hayes

April 17, 2024

# Purpose

---

## Problem

- Pre-built PCs don't have variety
- Time consuming to browse multiple websites
  - Compromise to get what you want

## Motivation

- Help business run smoother
- Satisfy customers needs quicker
- More options within budget

# What is Crowd Control?

- Business
- Website
- Web Scraper
- Database

# Languages and Software

Python  
(Beautiful Soup)

HTML

PHP

CSS  
(Tailwind)

JavaScript

MySQL

Laravel

DEMO

# Challenges Overcome

Are you a robot?

Laravel

JavaScript

# Future Enhancements

---

- Recommend build using AI
- Pull products and prices from multiple websites
- Implement a payment processing API
